

## Aschoff Solar Company News

August 2017

### New Project, Swire Cold Storage in Bac Ninh, Vietnam

Aschoff Solar and Terramar Vietnam finished a new Solar Power System, for *Swire Cold Storage* in Bac Ninh.

The System is designed to generate electricity for self consumption, required for the cooling of the storage. With a solar power of 308 kWp, it is the largest PV rooftop installation in Northern Vietnam.

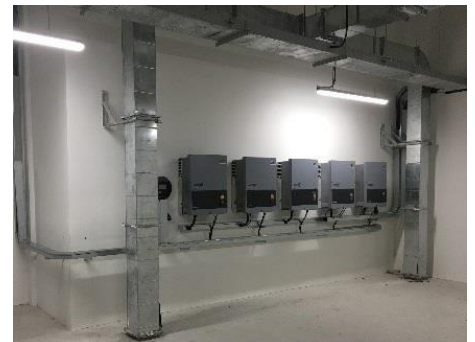

*Swire Cold Storage* is the premium international standard cold chain logistics company with the highest levels of operational efficiency in Vietnam.

The Bac Ninh branch is situated in the Vietnamese and Singaporean industrial park and has a size of 25,000 m<sup>2</sup> storage area. Seafood, beef, fruits and many more will be stored for multinational clients.

The project was supported by the German GIZ as showcase project, to demonstrate and monitor solar power operation in the cold storage sector – one of the most suitable applications for solar energy due to a perfect demand profile.

#### Project Data

Customer:	Swire Cold Storage Vietnam Co. Ltd.
Location:	Bac Ninh, Vietnam
Solar Power:	308 kWp
Solar Yield:	437,360 kWh/year
