

Aschoff Solar Company News

June 2014

New Project, Happy Arts & Crafts in Ningbo, China

Aschoff Solar finished a new PV project, for *Happy Arts & Crafts* in Ningbo.

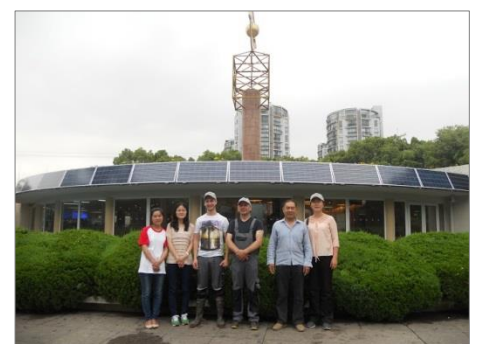

The System is designed to generate electricity for self consumption or to feed in to the public grid.

Already in 2011, Aschoff Solar installed a Solar Thermal System for the customer, that is the world leading manufacturer of wooden toys, only producing on a very high environmental level in Ningbo.

The Solar Power System completes the requirements of the customer on green energy, so that both, hot water demand and electricity, can be covered by solar energy.

Project Data

Customer: Happy Arts & Crafts
Location: Ningbo, China
Design: Electricity for self consumption/feed in
